## PROJECTS

### Spotify Clone

The Spotify Clone project is a meticulously crafted web application that emulates the core functionality and aesthetics of the popular music streaming platform, Spotify. Developed using HTML, CSS, and JavaScript.

### E-Commerce Platform

The E-Commerce Platform project is a dynamic and user-friendly web application designed to provide an immersive online shopping experience. Leveraging HTML, CSS, and JavaScript, this responsive web page offers seamless navigation across devices, ensuring accessibility for users on desktops, tablets, and mobile phones.

### Simon Game

Created a digital version of the classic Simon electronic game using HTML, CSS, and JavaScript. Implemented game logic, user interface design, and score tracking features.
